Education week in Periodontology and Implant Dentistry with Prof. Sculean and team combined with marvelous winter holidays in the Bernese Alps

BERNESE PERIO WINTER EDUCATION WEEK

**6th–13th March 2021 in Saanen-Gstaad
Hotel Spitzhorn · www.spitzhorn.ch**

The aim of this course is to provide general dentists and specialists with an evidence based concept on the treatment of periodontally compromised patients in a fantastic environment in the heart of Switzerland. This interactive course will encompass the most important aspects related to the diagnosis, treatment planning, nonsurgical and surgical therapy, use of antibiotics, lasers and photodynamic therapy in the overall frame of a comprehensive treatment concept by also providing concepts for the prevention and treatment of peri-implant diseases.

Case presentations and discussions along with hands-on workshops will help to acquire in-depth knowledge about the use of various surgical techniques aiming to regenerate the lost periodontal structures and/or to achieve predictable coverage of soft tissue recessions at teeth and dental implants. Last but not least, the course offers a unique possibility to directly interact with world-renowned researchers and clinicians along with a fantastic ski experience in the most beautiful slopes of the Bernese Alps!

- FACULTY**
- Department of Periodontology
University of Bern**
- Prof. Dr. Anton Sculean
Chairman / Course Director
 - Prof. Dr. Giovanni E. Salvi
Vice-Chairman
 - PD Dr. Christoph A. Ramseier
